

# Policies 2014

*Review with all members of your group.*

## I. Smoking

The Aviation Explorer Base is a smoke free area. Youth members are prohibited from smoking at all times per the Boy Scouts of America national policy. Adults who wish to smoke may do so off the Explorer Base grounds but are subject to the policies of the Experimental Aircraft Association.

## II. Drugs and Alcohol

The Aviation Explorer Base prohibits the use of alcoholic beverages and controlled substances by all registered camp members, including adults. The taking of prescription medication is the responsibility of the individual taking the medication. Prescription medication taken by a camp member must be noted on the medical form turned in at the time of registration.

## III. Bicycles, Inline Skates, and Skateboards

Due to the large amount of pedestrian and vehicular traffic, the use of bicycles, inline skates, and skateboards are a hazard. The EAA prohibits the use of these items on the convention grounds and flight line. Therefore, it is the policy of the Aviation Explorer Base to not allow camp members to bring these items.

## IV. Leaving the Convention Grounds

Youth members are not allowed off the convention grounds at anytime. If an advisor must leave the convention grounds, they must check in with a staff member with a destination and an estimated return time. One advisor from the post must remain on the convention grounds at all times.

## V. Curfew

The curfew for all Explorers and Advisors is 11:30 p.m. All camp members must be in their own tents at this time. These curfews are in place because the Aviation Explorer Base recognizes the need for all camp members to get adequate rest to work effectively and safely at the convention each day.

**VI. Quiet Time**

In consideration of our neighbors and fellow campers who must be up early the next morning, the camp will have a quiet time beginning at 10:00 p.m. This means no loud music or talking after this time.

**VII. Visitors**

Family members of registered campers are welcome and encouraged to visit the camp. Other visitors are allowed, however, the Aviation Explorer Base reserves the right to ask any visitor to leave if their behavior warrants it. Visitors must be escorted by the camp member who invited them and must leave the base campground before curfew. Any non-family visitors are restricted to the main tent. All visitors are expected to follow the base camp policies.

**VIII. Scheduling**

All camp members will be scheduled to work at various positions throughout the convention and/or camp. They are required to review the posted schedules and report to their assignments on time. Any questions/conflicts with the schedule should be brought to the attention of the camp staff member responsible for scheduling.

**IX. Riding the TRAM**

All camp members may ride the TRAM as long as they ride safely. Usage is a privilege, not a requirement. Do not use the TRAM for Area 51 or P1 rope positions. No one should get on or get off of the TRAM unless it is stopped. Failure to do so will result in being banned from using the TRAM until further notice.

*Advisors are responsible for enforcing the policies and the curfew rules as well as disciplinary actions for offenders. The Camp Staff suggests that curfew offenders should be given two chances. After missing curfew the second time we suggest that the offending party be confined to the camp for the following day and evening (except for work) or that they be sent home at the parent's expense.*
